Welcome to Term 1 2026 FACT SHEET (Continued)

How many sessions should I do with Runlab a Week?

Well that's partly determined by how many groups are in your region, and this is something we are looking to increase all the time. It also depends on your running history and your running goals. But on average most runners training for events train 6+ times a week and many do more than that.

This would be a combination of shorter easier runs, possible gym strength work and a weekly longer run usually on the Weekend. An Ideal mix would likely include two targeted run sessions and a Strength sessions every week in addition to your other training.

We offer flexible pricing per session which adjusts downwards if you do more than 1 session/week

Flexibility! IF you miss your weekly session YOU can swap to another group or make it up the following week, no worries!
